EDUCATION

Bachelor of Technology in Computer Science and Engineering Ajeenkya D Y Patil University, Pune	August 2022 - May 2026 CGPA: 7.22/10.00
HSC, Class XII Vikhe Patil Sainik School, Pravaranagar, Maharashtra	June 2019 - April 2021 87%

TECHNICAL SKILLS

Cloud	AWS (EC2, S3, Lambda, IAM, Elastic Beanstalk, CloudWatch)
DevOps	Docker, Docker Compose, Kubernetes, Jenkins, GitHub Actions
Infrastructure as Code	Terraform, AWS CloudFormation
Configuration Management	Ansible
OS & Scripting	Linux, Ubuntu, Bash, Python
CI/CD	Jenkins, GitHub Actions, Maven
Version Control	Git, GitHub
Networking	TCP/IP, HTTP/HTTPS, DNS, Ports, Security Groups
Programming	Java
Backend	Spring Boot, REST APIs
Database	MySQL

EXPERIENCE

Ventures Digital India <i>Software Trainee Intern</i>	December 2025 - May 2026
---	--------------------------

- Developed backend applications using Core Java, Advanced Java, collections, and object-oriented programming.
- Developed and consumed REST APIs using Spring Boot and worked with MySQL databases and SQL queries.
- Used Git and Maven for source control and build management while troubleshooting application issues.
- Gained practical exposure to Linux environments, application deployment workflows, and cloud-oriented development practices.

PROJECTS

3-Tier Application Deployment using Docker Compose <i>Docker, Docker Compose, React, Spring Boot, MySQL, Linux</i>	2026
--	------

- Containerized a 3-tier application consisting of React frontend, Spring Boot backend, and MySQL database using Docker.
- Created multi-stage Dockerfiles and configured Docker Compose networking, service dependencies, environment variables, and persistent storage.
- Deployed and troubleshoot containerized services on Ubuntu and AWS EC2 environments.

AWS Infrastructure Provisioning using Terraform <i>Terraform, AWS EC2, Linux</i>	2026
--	------

- Provisioned AWS EC2 infrastructure using Terraform with configurable provider, region, AMI, and instance-type resources.
- Applied Infrastructure as Code practices to automate cloud resource provisioning and reduce manual configuration.
- Used Terraform CLI commands including `init`, `plan`, and `apply` to manage infrastructure.

CI/CD Pipeline using Jenkins and Maven

2026

Jenkins, Maven, Git, Java, Tomcat, Linux

- Built a CI/CD environment using Jenkins, Maven, Git, and Apache Tomcat to automate application builds and deployments.
- Configured automated source-code checkout, Maven build, packaging, and deployment workflows.
- Practiced pipeline troubleshooting and deployment automation in a Linux environment.

AWS Polly Text-to-Speech Automation

2026

AWS Polly, S3, Lambda, IAM

- Built an event-driven serverless workflow using Amazon Polly, S3, and AWS Lambda.
- Configured S3 event notifications to trigger Lambda automatically when files are uploaded.
- Applied IAM permissions and AWS serverless architecture concepts to automate audio generation and storage.

ReelForge AI – AI Reel Idea Generator

2026

Docker, React, Spring Boot, REST API

- Developed a full-stack AI application using React and Spring Boot with REST API integration.
- Integrated an external AI API and containerized application components using Docker for deployment practice.

CERTIFICATIONS

- **AWS Certified Cloud Practitioner**
- **AWS re/Start Graduate Program** – Amazon Web Services
- **OCI Oracle Cloud Infrastructure** – Oracle

CLOUD & DEVOPS TRAINING

AWS re/Start Graduate Program

2025

Amazon Web Services

- Completed hands-on training covering AWS cloud fundamentals, Linux, networking, security, and cloud infrastructure concepts.
- Gained practical exposure to AWS services, cloud architecture, and infrastructure through hands-on labs.

Cloud & DevOps Hands-on Learning

2026

Technical Development

- Practiced Docker, Kubernetes, Terraform, Ansible, Jenkins, Linux, AWS, and CI/CD through hands-on projects and labs.

DECLARATION

I hereby declare that all the details furnished above are true to the best of my knowledge and belief.
